Divination is the magical art of discovering the unknown through the use of tools or objects. It can help you to make a decision or give you guidance

How to use the spread

Relax and focus on the question you want to ask - this can be as general or specific as you like. Then, using one of the following forms of divination, choose a card and read the summary you have chosen for guidance.

Intuition

Slowly open your eyes and then select the card that you feel most drawn to.

Psychometry

With your eyes closed, run your hand across the page and stop at the card you feel is right for you.

Dowsing

Using a pendulum, ask it to show you a movement for 'yes' and 'no'. Then hover it over each card until you get a 'yes' - this is your card.

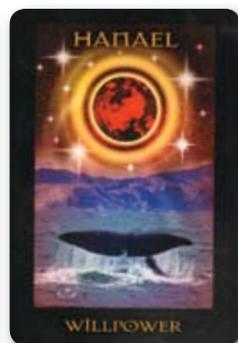

Bibliomancy

Close your eyes and with your finger point to any card at random.
